Journal of Fluid Mechanics Volume 398 10 November 1999

S. Gopalan, J. Katz & O. Knio	The flow structure in the near field of jets and its effect on cavitation inception	1
D. Clamond	Steady finite-amplitude waves on a horizontal seabed of arbitrary depth	45
S. A. Suslov & S. Paolucci	Nonlinear stability of mixed convection flow under non-Boussinesq conditions. Part 1. Analysis and bifurcations	61
S. A. Suslov & S. Paolucci	Nonlinear stability of mixed convection flow under non-Boussinesq conditions. Part 2. Mean flow characteristics	87
X. Wu, R. G. Jacobs, J. C. R. Hunt & P. A. Durbin	Simulation of boundary layer transition induced by periodically passing wakes	109
Th. Grimm & T. Maxworthy	Buoyancy-driven mean flow in a long channel with a hydraulically constrained exit condition	155
B. Ma, C. W. H. van Doorne, Z. Zhang & F. T. M. Nieuwstadt	On the spatial evolution of a wall-imposed periodic disturbance in pipe Poiseuille flow at $Re = 3000$. Part 1. Subcritical disturbance	181
D. P. Cavanagh & D. M. Eckmann	Interfacial dynamics of stationary gas bubbles in flows in inclined tubes	225
A. P. Bassom & A. D. Gilbert	The spiral wind-up and dissipation of vorticity and a passive scalar in a strained planar vortex	245
B. Dintrans, M. Rieutord & L. Valdettaro	Gravito-inertial waves in a rotating stratified sphere or spherical shell	271
E. Lajeunesse, J. Martin, N. Rakotomalala, D. Salin & Y. C. Yortsos	Miscible displacement in a Hele-Shaw cell at high rates	299
J. A. Langford & R. D. Moser	Optimal LES formulations for isotropic turbulence	321
INDEX TO VOLUME 398		347
SCHEDULE OF INTERNATIONAL CONFERENCES ON FLUID MECHANICS		348

CAMBRIDGE UNIVERSITY PRESS
Cambridge Journals Online
